

PRODUCT SHEET

GlobalSuite® Business Continuity

The unforeseen, improved through continuity and consistency

BIAs, crisis management, monitoring... Optimal continuity management allows us to face any risk scenario in a stable manner.

What is GlobalSuite®?

It's a GRC solution that optimises the risk management, security, continuity, auditing and Compliance of your business. GlobalSuite® automates, sets up and monitors each process, ensuring that everything is done correctly.

What does GlobalSuite® Business Continuity allow you to do?

With GlobalSuite® Business Continuity you can centralise all your continuity plans:

- Activating crisis management procedures.
- Automated maintenance and permanent updating of the BIAs.
- Monitoring everything that is happening that could affect business continuity.
